

LEGISLATION AND LEGISLATORS

WORK OF FIRST WEEK REVIEWED

Five Days of Legislature Have Not Been Devoid of Interest.

FEW OF CHIEF FEATURES

GOVERNOR'S MESSAGE AND PROHIBITION IN FRONT RANK.

The first week of the eighth session of the Utah legislature has been a moderate one, but nothing of an extraordinary character has developed. Following the caucus of Saturday night, both branches organized Monday with E. W. Johnson of Logan as speaker of the house and Henry Gardner of Spanish Fork as president of the senate. There were no contests after the caucus action, although the senate there were additions to the list of officers.

The governor's message to the legislature, which was read on Tuesday, was the event of that day, naturally. A good many said that they were disappointed in the message. They expected something more than that which was contained therein. For instance, they expected that the governor would say something on the prohibition problem, but he didn't. In fact, the governor's message did not come to what people had thought it would in many respects, as a matter of fact, the governor's message is not exactly a volume of the thrilling sort.

The first of the series of bills relating to prohibition and local option was introduced Friday by Porter of Morgan. This bill is far-reaching in its scope, and provides for absolute prohibition. It is expected that there will be other measures, but few in number, introduced in both houses before the session is advanced. The bill in the house was referred to the judiciary committee. It is expected that some of these liquor bills will finally come to the committee on manufactures and commerce.

The anniversary of the birth of Abraham Lincoln, Feb. 12, was added to the list of holidays to be observed in Utah. An entire new arrangement of the present law was made. This bill was introduced in the house by Clegg. Senator Badger introduced it in the senate.

The first bill to be passed by both houses was that for the appropriation of \$5,000 for the expenses of this session.

The joint memorial to congress asking for the annexation of a part of Arizona to Utah attracts no little attention, in spite of the fact that similar memorials have been introduced and passed for the last twelve years. If the congress accepts the suggestion contained in the memorial, the bill in the house was referred to the judiciary committee.

Your Liver's Your Life

A dead liver means awful sickness—don't let it come when it can be prevented. Cascarets keep the liver lively and bowels regular and ward off serious, fatal illness.

CASCARETS—10c box—week's treatment. All druggists. Biggest seller in the world. 1 Million boxes a month.

Let Us Tell You of Fenway Chocolates

They are made in the cleanest, airiest, most modern and hygienic factory there is in America. Nothing but the best sugar, finest and best Caracas chocolate, and rich, ripe, fresh fruits for flavoring. 30 cents and 60 cents.

SALT LAKE CITY SCHOOL BOARD

Salt Lake Will Ask Legislature to Extend Its Limit of Indebtedness.

GOVERNOR TO APPOINT BOARD TO TAKE CONTROL

Salt Lake City will go before the legislature this year with a proposition to permit it to bond for a new high school on the east side. The board of education is a unit on the question of having a new high school building, more centrally located than the present one, which is in the northwestern part of the city. The objection to the present location is that it is a great majority of high school students to go "cross-town," sometimes at long distances, involving danger through street car accidents, tardiness during inclement weather and other considerations of the sort. The board asks for \$50,000 for this purpose. It is believed that the property owners on the east side—somewhere in the vicinity of the city and county building, perhaps—will not be inclined to "hold up" the board, but that they will be glad to dispose of their property at reasonable figures.

The proposed bill is designed only to give the people of Salt Lake an opportunity to vote for or against the bonds. If, indeed, there is any opposition to all of the property owners of Salt Lake, the people, that when it comes to helping the school, the best is none too good.

Utah's area will be increased by about 8,000 square miles. This area is that portion of Arizona lying north of the Colorado river, bordering the Grand Canyon. The people who live on the "starry" have practically no way of reaching the capital of their own state save by tortuous and circuitous routes. Their interests are practically identical with those of the people across the Utah border line.

Following the suggestion contained in the governor's message a bill has been introduced in the house for the establishment of a school for the mentally deficient and idiotic. This will be a sort of an auxiliary to the state mental hospital, if the law is passed. It is designed to take care of feeble-minded children—that is, children who are not really insane, but who are irresponsible and helpless.

Next Tuesday both houses will cast their ballots for United States senator. There seems to be no question that Reed Smoot in the senate and the forty-three in the house. It seems pretty well settled that the minor candidates of Messrs. Morgan of Washington and Hammond of Grand, will cast their vote for Samuel Newhouse. On Wednesday the two houses will meet in joint session to ratify the selection of Smoot. Badger in the senate and Wootton in the house have been decided upon to make nominating speeches for Smoot. There is some adverse criticism of this course, inasmuch as Badger is not a Utah man—some believe that Smoot's nomination should be made by men from his own county.

Both President Gardner and Speaker Robinson manifested did the best they could in the course of the session. Both invited suggestions, and, so far as appears, there is little fault to be found with their selections. It is believed that the speaker of the house had been expected up to the last that Baker of Tooele would be chairman of the judiciary committee, but in this sphere the matter of choice is a legislative one. He was chairman of the same committee two years ago.

A bill in the senate prohibits the use of cuts for advertising purposes unless the consent in writing of the person portrayed be obtained. The object of this bill is to prevent the use of a picture of the agricultural college on a certain brand of imitation coffee. The bill follows the suggestion of Governor Spry. The bill as introduced does not carry out the object intended, inasmuch as it says that picture of a man or woman is sacred in respect, and makes no reference to public institutions. The measure will be amended to meet this defect.

The commission which had charge of the Utah exhibit at the irrigation congress at Albuquerque will be reimbursed for the money spent in conveying the exhibit to New Mexico and incidental expenses. A bill for an appropriation of \$10,000 for this purpose has been introduced in the senate.

More than passing interest was taken in the convention of the good roads advocates. At all of the sessions on Thursday and Friday a number of speakers took part in an absorbing interest in the proceedings. Inasmuch as a large number of the members are from outlying counties, the matter of roads is a constant and vexing problem, the discussions at the convention were a source of profitable instruction as well as being a source of good roads movement will soon find its way into the legislature in the shape of nine or ten bills. Having fore knowledge of what these bills propose, the legislators are in a better position to act with wisdom than they would otherwise be.

BICYCLE RACES.

Washington, Jan. 16.—Elmer Collins of Lynn defeated Albert Edwards of England, holder of the motor-paced record of the world, in a twenty-mile motor-paced race at the Park Square Coliseum tonight. The time was 33 minutes 42.5 seconds, a new track record.

The one-mile professional handicap race was won by J. B. McKay of New York in 1 minute 53.5 seconds.

J. K. Halstead of South Africa won the amateur race in 11 minutes 5.5 seconds.

GOLF TOURNAMENT.

Piscataway, N. J., Jan. 16.—J. C. Knapp of New York captured the title of division cup in an exciting final round in the advertising men's golf tournament today, defeating W. Smalley of Philadelphia in the 18th hole. Smalley won the right to play in the final with a 18-hole match with H. V. Seggerman of New York. Both matches were won with brilliant rallies.

In connection with the display was a medal play handicap with six pros. B. H. Rice of New York winning the principal trophy.

Individual Boxes.

A place for everything and everything in its place is more applicable to valuable papers than anything else. Our Safety Deposit Vault, which is one of the handsomest, strongest and most modern west of Chicago, contains individual safes or boxes. We rent these boxes for as little as TWO DOLLARS per year. One of these boxes is the safest place for your jewelry and valuable papers, such as promissory notes, contracts, bonds, certificates of stock, fire or life insurance policies, deeds, mortgages, etc. You do not have to worry about burglars or fire, and in the event of your death your family will not have to worry about finding these papers. If you live out of Salt Lake City, you can send your valuable papers to use by registered mail to be taken care of for you.

SALT LAKE SECURITY & TRUST COMPANY.

No. 22 Up Main Street.

FIRE AND POLICE BOARD

Senator C. E. Marks Will Introduce Ripper Measure in Legislature.

TAKE OVER DEPARTMENTS TO TAKE CONTROL

REVIVING THE RIPPER BILL. We favor the enactment of a fire and police commission law for cities of the first class, and we pledge the nominees of this convention to the legislature to work that commission into form of Republicans of Salt Lake county at convention of Sept. 28. There shall be appointed in all cities of the first class, a board of fire and police commissioners consisting of three persons, residents and freeholders of said cities, to be appointed by the governor of the state of Utah, and with the advice and consent of the senate, shall make said appointments. The terms of all officers, employees and agents, including the chiefs of the present fire and police departments, shall expire upon the completion of the new organization hereinafter provided for, and all property and departments shall be forthwith turned over to the board hereby created. The proposed ripper bill is as follows:

Senator Charles E. Marks of Salt Lake will introduce the so-called "ripper" bill toward the latter part of the week a fire and police commission bill, as directed by the Republican county convention which nominated him. The bill will be much the same as the famous "ripper" bill fought out in the legislature two years ago. This bill was passed by the house, but was killed by the senate.

The real purpose of the bill is really to take out of the control of the "American" party two of the most important branches of the city government and place them under the direction of the governor. The bill provides that the governor shall appoint three persons in cities of the first class to constitute a board of fire and police commissioners, one of whom shall be designated as the president of the board. The salary of the president, according to the bill, would be \$2,000 a year and each of the two members \$1,500. The bill also provides that the term of the board shall be four years and that it shall be non-partisan, that is that one of the members shall be of a different political belief from that of the governor. It is also provided that no member of the city council or no city official shall be a member of the board. The bill also provides that the board shall have power to confer upon cities of the first class, are, by the terms of the bill, under the control and management of said board. The fire and police board is given the power to appoint all members of the fire and police departments to serve during their good behavior.

To Secure All Property.

"Immediately upon the organization of said boards, all papers, books, records, and all other things pertaining to the fire and police departments, all fire boxes, fire and police stations, engines, hoses, carts, hook and ladder trucks and all other apparatus, books, papers and other documents of said cities, coming under the provisions of this act, and all other things pertaining to the fire and police departments, shall be turned over to and hereafter be under the absolute control and management of said boards, and all hose or apparatus or belongings of any kind hereafter appropriated or provided for by cities shall be under the control and management of said boards."

Although the city has no voice in the appointment of the board, nor in the way that the board shall conduct the work of these departments the bill provides that the city council shall appropriate from the city treasury the amount estimated by the board to be required by the departments each year. There is question about the constitutionality of such a bill. The leaders of the "American" party, against whom the bill is apparently directed, declare confidently that under the state constitution the state has no right to delegate the powers of any municipality to any commission not elected directly by the people of that city. There are in both houses thirteen members pledged for the proposed measure. These are the ten representatives elected from Salt Lake County and three from the other counties. Of the holdover senators from Salt Lake county Benner, Smith and Miller oppose the measure, while the last session W. N. Williams favored the ripper bill. Of the other senators Albert E. Miller and H. H. Hunt are also opposing the bill. Most of the new senators are non-committal.

JOINT INSTALLATION.

Sherman Post and Ladies' Relief Corps of Provo Entertain in Hospitable Manner.

Provo, Jan. 16.—Wednesday morning the ladies of the William Sherman Relief Corps No. 5, G. A. R., met with the William T. Sherman post No. 5, G. A. R., for the joint installation of officers. The following officers of the post were installed by Colonel Tatlock, chapel commander: Mr. Whitmore, quartermaster; Mr. Kellogg, Juggers; Mr. Douglass, senior vice president; Mrs. Pypers, junior vice president; Mrs. Cluff, chaplain; Mrs. Ray, trustee; Miss Kellogg, secretary; Mrs. Westwood, conductor; Mrs. Statton, assistant conductor; Mrs. Leatham, guard; Mrs. Juggers, assistant guard; Mrs. Markwick, musician; Mrs. Murphy, patriotic instructor; Mrs. Watson, press correspondent. The five color-bearers were Mrs. Kellogg, Mrs. Simmons, Mrs. Packard, Mrs. Smith and Mrs. Westwood. There was a large attendance of G. A. R. people from Salt Lake, including Colonel Sterrett, in charge of the forty-third national encampment of the G. A. R., accompanied by the Hawaiian Troubadour band. At a banquet given by the Relief Corps, speeches were made by Colonel Sterrett, Fisher Harris, George B. Squires, Jesse Knight, George H. Brimhall and others. The question of the future of the Relief Corps was that of the G. A. R. encampment. It was the unanimous sense of the local speakers that Provo would do all in its power to make the encampment a success so far as the city will be given an opportunity.

AMATEURS BREAK AWAY.

LONDON, Jan. 16.—The bogie of professionalism has split the ranks of Rugby football players in the United Kingdom, which threatens to end international contests and reduce Rugby football to the level of the association game. The latter is so tainted with professional greed that a number of bona fide amateur clubs have broken away from the parent "football association," and have started an amateur football association.

BREAKS A COLD PROMPTLY.

The following formula is a never-failing remedy for colds: One ounce of compound Syrup of Sarsaparilla, one ounce Toris compound and half-pint of good whisky; mix and shake thoroughly each time, and use in doses of a tablespoonful every four hours. This will frequently cure an acute cold in twenty-four hours. The ingredients can be gotten at any drug store.

PROFESSIONAL STATION

Rains Have Ceased and California in General is Safe From Floods.

SACRAMENTO IS EXCEPTION

WATER HIGHER THAN EVER BEFORE AND END NOT YET.

San Francisco, Jan. 16.—After an almost continuous downpour for six days, indications are that the storm which has been hovering over the Sacramento and San Joaquin valleys and extending to the eastern slopes of the Sierra Nevada for the last week, carrying away bridges, bursting levees and demoralizing traffic on the northern and eastern railroad routes, is broken and the flood situation shows considerable improvement. With the exception of Sacramento, where the Sacramento river is still at a high stage, the government gauges, eight-tenths of an inch an hour, reports from the central portions of the state are that the Sacramento, San Joaquin and Feather rivers and their tributaries are falling rapidly. The principal danger point tonight is at Sacramento, where the crest of the flood is expected to be reached before morning. The river is already pouring over the levees at three places, but up to a late hour no breaks had occurred.

Repair Work Progressing.

The work of repairing the numerous washouts of the Shasta and Ogden routes of the Southern Pacific lines has been progressing rapidly. Three northbound passenger trains on the Shasta route, which were held up by the washouts at Red Bluff, passed over temporary tracks laid near Kennett, at 8 o'clock tonight, bound for Portland. The first of the party of 100,000 troops detoured, will arrive in San Francisco tomorrow morning, having come from Salt Lake over the San Pedro route via Daguerre and Mojave. Officials of the road said that they hoped to open the direct eastern line to Ogden some time tomorrow afternoon.

RECORD EXCEEDED.

Water at Sacramento Nearly a Foot Higher Than Ever Before.

Sacramento, Cal., Jan. 16.—At 9:30 o'clock tonight the water in the Sacramento river at this city reached the 23-foot mark on the government gauge, eight-tenths of a foot higher than ever before. The city is safe, though at one place the levee over which the water is passing is only a few feet above the water level. At 9 o'clock the levee at the Chickering or Snyder ranch on the Yolo side and three and a half miles below Sacramento, went out, leaving a gap 200 yards wide, through which the current rushed with enormous force, accelerating the current and raising the water level. The break will gradually widen and the relief to points above and below the city will be permanent. The territory that will be flooded by the water from the Snyder break will reach from the town of Woodland across the river to this city, barring a couple of weak cross levees, to Marrett Island, nearly twenty miles to the south.

The flood of the American river has gone down and this city is not threatened from that direction. The crest of the Sacramento river is still between Red Bluff and Colusa, and will not reach this city until tomorrow. It is in the form of a great swell, and is fifty miles long.

Washouts and Snowdrifts.

Redding, Cal., Jan. 16.—Washouts and snowdrifts will prevent trains from going through the Sacramento valley today. It is possible that repairs may be made by night, as every available man has been put to work by the railroad company. Southern Pacific trains No. 13 and 15 are being held at Dunsmuir, while the northbound trains are waiting at Red Bluff and Colusa, and the worst washout at Coram. The rain ceased falling during the night, and the river is falling rapidly. Redding and points north of here have had no mail for two days.

BLIZZARD IN CANADA.

Winnipeg, Man., Jan. 16.—A blinding snow, driven by a forty-mile wind, last night and today enveloped western Canada in the wildest blizzard the country has experienced in recent years. Train service is practically at a standstill. Coast express trains have been buried for almost eighteen hours in snowdrifts near Swift Current.

LEGAL WORD SPECIALISTS.

Have to Know Exact Shade of Meaning in Words and Phrases.

(New York Press.) "Some people seem to think that an important legal document can be drawn up by a lawyer in the time it takes him to make a cup of coffee. It is not so. It takes time and the most scrupulous care to get things just right. The Lord only knows where the lawyers would land."

Why, I know a man in one of the great law firms who is a specialist in the exact shade of meaning of each word or phrase used in a legal document. Nothing goes out of his office without being submitted to him to pass upon. Sometimes he will give a week to the study of but one short, but very important, paper, thereby as to the possibilities of its meaning being construed this way and that. When he gets through with a document, however, and it is submitted every word of it to the acid test, there is practically no chance of its not being exactly right as to its verbiage each time it is used. It is deemed desirable by clients to becloud the meaning of a contract so that there is a loophole for its being construed in the event of certain contingencies occurring. That is where the services of an expert word juggler are needed.

"The biggest case that I ever heard of in this line was a few years ago, when the great corporation that owned the issue some mortgage bonds against its property. A long contract had to be drawn up, and the wording of each word and each clause had to be decided upon. The matter was so important that, after the attorneys themselves had decided on the words to be used, it was turned over to two of these experts in verbiage. "They looked up the dictionary meaning of practically every word used in the documents and made innumerable changes and suggestions. Before the papers were finished thirty different drafts of each of the two documents had been made, and there was not a word used in the final form of the papers that had not been considered carefully. Not only as to its individual meaning, but also as to its individual relation to the other words of the phrase or sentence containing it. It is safe to say that these two documents are never likely to be assailed successfully in a court of law, and that they mean exactly what the corporation and its counsel wished them to mean."

DIED.

TURNER.—At 725 South Fifth East, Jan. 15, 1909, of old age, Thomas Turner, born Jan. 28, 1837, in England. Father of Thomas H. Turner. Funeral services Monday at 1 p. m. from the funeral chapel of Joseph William Taylor, 22 South Temple street. Friends are invited to attend. Interment in City cemetery.

WAMBACH.—In this city, Jan. 15, Oscar Wambach, in his 86th year. Funeral services will be held from the S. D. Evans mortuary chapel Monday, Jan. 16, at 4 p. m. Interment in City cemetery.

FLORISTS.
